# Eye Com 6000

## Engineering Reader

This dual lens reader comes complete with two lenses. The first lens (12X) allows viewing of A, B, C, D and E size drawings. The second lens is a magnifier which can blow up any portion of the image on the screen.

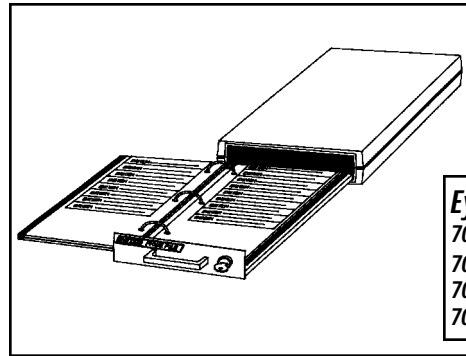

The 6000 also features an energy-saving hi/low light intensity switch and an optional rollfilm attachment for 16 and 35mm rollfilm.

You won't find a better image or a better Engineering Reader at its price.
