

M-2 MICROFICHE DUPLICATOR

The M2 is a rotary Microfiche Duplicator.

Providing similar function to the M-1, the M-2 was newly designed in the Spring of 2000, resulting in a smaller, lighter unit that is more energy efficient.

The M-2 replaces the Micobra M-1 Microfiche Duplicator and the Bell + Howell 404 Printer which are no longer in new production.

The M-2 provides crisp, high quality diazo, and vesicular copies every time. The operator need only set the exposure dial, match the microfiche master or jacket with the copy film, and insert it into the feed chute, which is conveniently located for either standup or seated operation.

ADVANTAGES:

- Compact, tabletop
- Simple to operate
- Energy efficient
- High resolution
- Bi-Modal: exposes both diazo and vesicular film
- Fast: 200 to 400 copies per hour in one-on-one applications
- Reliable - 6 month warranty

SPECIFICATIONS:

<i>Lamp:</i>	400 watt
<i>Electrical:</i>	110V / 60 Hz - 6 amps 230V / 50 Hz 3.0 amps
<i>Exposure Rate:</i>	200 - 400 / hour
<i>Warm up time:</i>	3 minutes
<i>Dimensions:</i>	Height: 12 1/2" (320 mm) Width: 21" (530 mm) Depth: 16 1/2" (420 mm)
<i>Net Weight:</i>	62 lb. (28 Kg)
<i>Shipping Weight:</i>	78 lb. (36 Kg)
