

# Eye Com PrintMaster 10,000

## Bimode, Plain Paper Reader/Printer

### One Reader/Printer to Handle Your Positive AND Negative Microfiche & Rollfilm.

The Eye Com PrintMaster 10,000 offers the ultimate in office efficiency through a wide range of functions, easy operation and compact size. One of the most universal plain paper reader/printers available, the PrintMaster 10,000 can read and print both negative and positive microfiche or rollfilm with a simple cartridge change. The large 11-3/4" x 11-3/4" screen is ideal for both Source and COM images.

In addition to the convenience of bimodal operation in a single unit, the PM 10,000 also provides the option of high speed motorized control for 16mm and 35mm rollfilm and 3M cartridges. Advance or rewind film at the rate of 5 feet per second simply by turning the transport control knob.

The PM 10,000 warms up in only 25 seconds and delivers 8 copies per minute. The large, 250-sheet paper cassette minimizes the need for frequent and time-consuming refills.

Options include border erasure unit, automatic exposure unit, line trimming unit, and rollfilm attachments including 3M cartridge auto thread motorized, 3M cartridge manual thread motorized, 16/35mm manual, 16/35mm motorized and 16mm motorized.
