

Readers

Anacomp carries a full line of high quality readers from desktop to portable, microfiche to roll film. All readers come with a limited warranty (except for screen, lamp, and glass).

The Micron™ 300 and 700 Series

readers designed by Anacomp offers a wide variety of styles and screen sizes for virtually any application. The Micron 300 series is designed to be the lightest, most compact, and low cost reader available. The Micron 700 series readers sets the standard for durability, versatility, and performance, designed for years of constant daily use, these readers feature rugged all-metal bases and patented ball-bearing carrier system that eliminates friction and wear.

- Interchangeable Drop-in Lenses for Maximum Application Versatility
- Exclusive Floating-lens System for Consistent, Razor Sharp Focusing
- Simplicity of Design for Maximum Reliability
- Quality at an Affordable Price
