

ALOS CC900 & CC900M

The Combo Carriers CC900 (motorized) and CC900M (manual) are universal carriers that allow you to meet all of your microform retrieval needs with just one carrier. They are highly versatile, yet economical carriers that are the ideal choice when fast and easy switching between fiche and rollfilm is required. They are designed to work with a variety of Canon microfilm reader-printers and microform-scanners. Both units support 16mm and 35mm film in open reels, microfiche, aperture cards and jackets. With an optional adapter, 3M-type cartridges are also accepted.

The CC900 has a motorized film transport with upfront push-button controls built into the handle, with three convenient speeds. Slow motion, scan and high speed are available for forward and reverse motion. High speed at 10 feet (3m) per second, and a remarkably smooth slow scanning motion makes it quick and simple to locate the desired film location. At high speed, the film is protected from scratching by open glass flats.

As an accessory to the motorized CC900, a variable speed control box is available for variable film speed from 0 to 10 feet (3m) per second and hands-free operation.

A low cost manual model, the CC900M, is also available.

Specifications	CC900	CC900M
Compatibility:	Canon PC80/ MP90: Digital Microprinters MS100/400/500/800	
Formats Accepted:	16mm rollfilm in open reels, 35mm rollfilm in open reels, microfiche, aperture cards, jackets and M-type cartridges <i>(with optional adapter kit)</i>	
Film Loading:	Manual	
Film Scanning:	Manual vertical adjustment. Motorized horizontal variable speed, operated by push-button controls	Manual vertical and horizontal movement
Film Scanning Speed:	0 to 10 feet (3m) per second	Manual
Retrieval:	Motorized	Manual
Power Consumption:	24W	N/A
Power Source:	Wall transformer: 24 VDC	N/A
Dimensions:	20 1/2" w x 12 1/2" d x 5" h (546mm x 317mm x 127mm)	23" w x 12 1/2" d x 5" h (584mm x 317mm x 127mm)
Weight:	15.5 lbs./ (7.03 kg)	13lbs./ (5.9kg)
Accessories:	16/35mm quick load take up reel <i>(included)</i> M-type cartridge adapter kit <i>(optional)</i> Variable speed knob control <i>(optional)</i>
