Why Leasing Equipment is the Best Business Option!

- ✓ **Leasing Is Flexible**
An equipment lease can be structured in a variety of ways to meet the exact needs of each client. Payments can be seasonally varied to match uneven cash flow, tied to specific projects, or "stepped" to increase or decrease over time.
- ✓ **Leasing Frees Up Cash and Preserves Bank Lines**
Leasing provides 100% financing - including items such as shipping, installation, software, and training. There is no need to tie up valuable working capital - making it available for more profitable opportunities like adding sales personnel, increasing marketing or taking advantage of quantity discounts. Bank lines are designed for short term needs and should be preserved for that purpose. Leasing is like opening an additional and separate line of credit, expanding, instead of restricting, your resources.
- ✓ **Leasing Offers Better Terms than Banks**
Leases do not require substantial down payments or compensating balances, do not have floating interest rates or restrictive covenants, and can usually be structured with lower monthly payments. Bank loans will typically allow for the note to be arbitrarily called or will require a cross collateralization of all business and personal assets.
- ✓ **Leasing Can Save on Taxes**
Since lease payments can be set up as a direct operating expense, they are paid from pre-tax dollars versus after-tax profits. This provides faster write-offs freeing up more cash more quickly.
